

we are thrilled to announce our partnership with **greencircle salons** to make your next visit to our salon a sustainable one!

did you know that your salon visit has an impact on the environment?

last year...

Green Circle Salons diverted

198,166 lbs of solid waste

8,295 liters of chemical waste

before

because **hair, metals & chemical residue** cannot be treated by most municipalities, this waste would end up in our landfills and waterways

now

we've partnered with **GCS** to turn your:

hair clippings into hair booms to clean up oil spills, or to be made into pillows for international aid efforts

color tubes & used foils into new metal

chemical residue into new sources of energy

learn more about the movement!
